COMMENTS FROM THE PUBLIC: NONE

OLD BUSINESS: NONE

NEW BUSINESS:

- a. On January 31, it was raining. Staff went downstairs to the storage room, where water was coming out of the new conduit openings for the electrical. Unfortunately, the water was near the circuit breaker boxes as well. The parking lot's electrical contractors were alerted, along with Bret. A temporary fix was implemented, but a more permanent solution must also be found. The conduit that appears to be causing the problem is the one with the longest run – the one that goes over to the new parking lot.
 - a. We will request that that conduit be scoped to look for holes or grime/dirt that came in with the water, by an independent contractor.

- b. The other conduits will be blown out with air and filled with a polywater system to protect the components.
- c. A French drain system will also need to correct the longest conduit.
- b. Jennie will contact the attorney once Bret gets all the information to ensure Concord-OVC JV pays for the work needed.

OTHER BUSINESS: None

Secretary Voitik motioned to adjourn at 6:35 pm; Vice President Schultz seconded. The meeting was adjourned.

Respectfully submitted,

Jennie Mills, Director
