

READ THE RAINBOW

Read 2 books for each color of the rainbow! Choose books with covers featuring each color and write down the title of a book that matches the cover color. The book cover does not have to be an exact shade of the color to count. The color can appear anywhere on the cover, including the title, pictures, or other design features. Choose books that are appropriate for ages 6–12 and your reading level. After completing each color, collect your brag tag!

Can you complete the entire rainbow? 🌈
